“What is this life if full of care,  
We have no time to stand and stare”

In this world of supreme technological advancement, where man has successfully metamorphosed himself into a machine, Mayo – the Mayo College Newsletter, sojourning on the wings of imagination, provides a refuge from the humdrum of this automaton life into a euphoric experience of perfect bliss. As one flips through the leaves of the newsletter, one experiences a confluence of colourful paraphernalia of events, myriad

emotions and abundance of activities that kept the Mayoites humming and buzzing in and out of their Alma Mater. Our endeavour has always been to project an ardent reflection of such activities and experience the grandeur and fervour of this eventful season at Mayo and enjoy the mental excursion from the realm of known to unknown. Reading provides us with this outlet, widening our spectrum of knowledge, giving pleasure and creating a strong bond with society.

As this hectic Autumn term draws towards its end, like a smoulder in the hearth, it rekindles hope for a new dawn, ushering in a new year that gradually unfolds plenty of potentials and possibilities like the unwinding and invigoration of petals of a vibrant flower.

As the new year blossoms, may the journey of your life be fragrant with new opportunities, your days be bright with new hopes and your heart be happy with love...Wishing everyone a New Year full of Happiness, Health, Peace, Serenity and Contentment...

-Chayan Kalia - Grade 11

-Mr Shashank Shekhar - Soup Lover

“Cereal is a solid or a semi-solid when mixed with milk. (She is a vegetarian so no chicken soup) When vegetables are mixed there is an embellishment.”
